## What does eheadspace do?

Young people may contact us if they need advice, are worried about their mental health or are feeling isolated or alone.

eheadspace can help with a broad range of issues like bullying, drug and alcohol issues, depression and anxiety, relationships, concerns about friends, fitting in and isolation.

Let us know if you are calling from a mobile and we can call you back.

## Is contact with eheadspace secure and confidential?

We aim to make every effort to ensure all contact with the eheadspace service is secure and confidential.

When you talk to someone at eheadspace, nothing said or written will be passed on to anyone else without your permission.

However, there are a few exceptions. For example, if we are concerned about your safety or the safety of someone else. In these instances, the eheadspace worker will try to talk to you first about what needs to happen and what additional supports you may need to help you be safe.

If necessary, we may need to pass on your contact information to authorities and/or other services to ensure you are protected and properly cared for. We will inform you about this where possible.
