Clinician (Demand Management & Enhancement) headspace Whyalla - Full Time

New Position – New Graduates/early career encouraged to apply

headspace is the National Youth Mental Health Foundation providing early intervention mental health services to 12-25 year olds, along with assistance in promoting young peoples' wellbeing. This covers four core areas: mental health, physical health, work and study support and

About the role:

- Design and deliver low intensity, client-centred, goal orientated cognitive behavioural therapy.
- Be responsible for the delivery of overall individual client therapy, in accordance with organisational and program funding guidelines.
- Deliver quality mental health care working co-operatively within a multi-disciplinary team and with our service partners to maximise opportunities to identify innovative, co-ordinated solutions for clients.
- Have the ability to adapt to a fast-paced work environment in our growing organisation.
- Deliver therapeutic services to clients with mild mental health disorders and from diverse backgrounds.

About You:

- Hold an appropriate tertiary qualification in Social Work, Psychology, Occupational Therapy, Mental Health Nursing or related discipline
- National Police Check, Department of Human Services Child-Related Employment Screening

What's in it for you?

- A supportive working environment
- A competitive salary in recognition of your qualifications and experience
- 5 weeks annual leave
- Generous salary packaging options to increase your take home pay
